Dr. Otto E. Guthe
Central Intelligence Agency
Washington, D.C.
20505

Dear Otto:

Many thanks for your good note of November 4 and especially for sending me a copy of "Growth of Trade Within the European Economic Community." This will be very helpful to me in my teaching and writing. It is a great service to scholars everywhere to have as many as possible available of these basic studies done under your supervision.

ER 65-27

Could you also spare a copy for Professor Harold Barger, 713 Hamilton Hall, Columbia University, New York 27? Professor Barger gives a lecture course and a Ph.D. on the European economy for the European Institute, and he is engaged in an important study of comparative rates of economic growth in Western Europe and the United States. I am sure he would like to receive any of your studies on Western Europe.

With many thanks,

Very sincerely,

Phil
